(FROM OUR OWN CORRESPONDENT.)

BRISBANE, MONDAY.

The steamer Sappho, from Port Moresby, is in

want of coal, and goes on to Townsville. If coal is

not procurable there, she will proceed to Bowen and

wait for a supply. The captain reports that affairs at

Port Moresby are bad. A great number are doing

nothing and are in a state of great destitution and

misery from want of provisions. He visited the main

camp at Laloki, where all the men are either ill or re-

covering from illness. He says their state is most painful.

There is no work, nor are there any prospects whatever.

Owing to the character of the country, which is de-

scribed by the diggers as dense tropical vegetation,

containing rain, and no open country. The worst

calamity that can befall Australia is the discovery of

gold there; for working in such a climate and country

will kill nearly all who go there. He considers

New Guinea unfit for habitation except along the

coast. He brought five of the Colonial party as

passengers from Port Moresby: namely, Messrs M. E.

Harris, Ferguson, J. W. Armstrong, and Goethe; a

young man, a colored man, named Sprague, belonging

to the Annie, a local-dweller and trading vessel on the

coast at Koppel Point, forty miles from Moresby. The

natives there, being dissatisfied with the trade, asked

for the return of their goods. The white refusal,

and a fight ensued in the course of which Sprague

was severely wounded in the stomach with a spear,

which entered six inches into his body. He and

three others were taken in a conveyance from the boat

to the hospital, being too weak to walk. The captain of

the Sappho held a court-martial over a man named

Trotter, of Cooktown, a confederate of Saint Helena,

for shooting a native. He was charged with violen-

ce, and a fight ensued in the course of which Sprague

was severely wounded in the stomach with a spear,

which entered six inches into his body. He and

three others were taken in a conveyance from the boat

to the hospital, being too weak to walk. The captain of

the Sappho held a court-martial over a man named

Trotter, of Cooktown, a confederate of Saint Helena,

for shooting a native. He was charged with violen-

ce, and a fight ensued in the course of which Sprague

was severely wounded in the stomach with a spear,

OUR BRISBANE LETTER.

BRISBANE, AUGUST 10.

Some time ago a firm of coal proprietors in the Wide

Bay district offered to construct a railway from their

mines to deep water on certain conditions, which the

Government refused to accept, on the ground that they

were much too high. The offer of a different

character, and to which such an objection certainly

cannot apply, has just been made, and the public are

patiently waiting to hear what the Government will say

to it. Mr. J. Hurley, M.L.A., of New South Wales, has

been formally offered to construct a line of railway from

the Burrum coal pits to some point on the Mary river.

He asks for a free grant of the land over which

the line will run, and a bonus of £5000, on his

part to construct a railway equal to the Mary-

borough and Gwympie lines, to carry goods and passengers

at the same rate as those charged on the Government

railways, and to sell the railway at a minimum of £5

at the end of twenty years. In case this offer is accepted

Mr. Hurley is prepared to commence operations within

six weeks. When a gentleman offers for so small a

consideration the right to construct a railway from his

mines to deep water on certain conditions, which the

Government refused to accept, on the ground that they

were much too high. The offer of a different

character, and to which such an objection certainly

cannot apply, has just been made, and the public are

FORBES.

MORLEY.

The turning of the first end in connection with

the working of the South Lead Gold Mining Co. at Forbes

took place on Saturday afternoon. The ceremony was

performed by Miss Macquenn, sister of Dr. Macquenn,

one of the largest shareholders in the company. A

speechee was made by the Rev. Mr. Macquenn, who

expressed his satisfaction at the success of the

company, and wished to see the mine developed

to its full capacity. There was a large company of

ladies and gentlemen present. The toast, which

was drunk in champagne, was as follows: "The

South Lead Gold Mining Co., and the success of the

company." The toast was received with great

enthusiasm, and the Rev. Mr. Macquenn, who

was the first to propose the toast, said that the

company was a noble one, and that the mine

was a noble one, and that the mine was a noble

one, and that the mine was a noble one, and that

the mine was a noble one, and that the mine was

a noble one, and that the mine was a noble one,
